Hi Joe and Lorena,

I hope all is well and congrats on getting the funding for the GPS system for the 2 trolleys! I would like to schedule some time with Joe next week in order to look at appropriate locations where we can hang signs for our trolley stops. I'm also interested in seeing the sample sign that you brought to the meeting yesterday and to go over what needs to be included inside the display. Joe – when can we meet for about an hour next week?

BTW – at yesterday's Board meeting I heard Joe say that he was having MV (is that the company that maintains our buses?) look at the speakers in the existing buses. I believe that that is a mistake and that we should have the GPS system and speakers be installed by a professional car stereo guy and I thought Jonathan brought this up when we met last. I just think that a professional car stereo person would do a better job and make sure that the sound quality is clear enough and loud enough so that the passengers can understand it (especially when riding in an open air trolley). Also, we discussed that the quality of the installation of the speakers should be spot on and look good. We discussed that if you need help with the woodwork that we can reach out to our friend Ciro Coppa once again.

Please let me know if you have an hour to spare next week….

Cheers,
Augie
